

OUR CAPABILITIES

Custom flat panel fabrication has been Panel Processing, Inc.'s specialty for 50 years. Add that fact that we have 9 manufacturing facilities, and unequalled experience in fabricating, painting, printing and laminating; we are the fabricator you need to take your next project from concept to reality. We start with your idea, utilize multiple substrates including raw thin and thick HDF, MDF, particleboard, plywood – you name it, then Panel adds value.

As we have expanded our business services and offerings it has become apparent that location is always going to be important for just in time shipments and to keep shipping costs low and competitive. That is why Panel Processing has 9 manufacturing plants in 4 states. Strategically located in Michigan, Alabama, Oregon and Virginia, we are ready to serve your needs.

PRODUCTS BY LOCATION

PRODUCTS	ALPENA, MICHIGAN	COLDWATER, MICHIGAN	HOLLAND, MICHIGAN	CLAUDVILLE, VIRGINIA	EUFAULA, ALABAMA	KLAMATH FALLS, OREGON
Beadboard	●				●	
Chalkboard & Liquid Chalkboard	●					●
Chalkboard Laminate			●			
Door Skins						●
Drawer Lineals					●	●
Eco-Finish Rigid Print Media	●		●			●
HPL/TFL & Veneer Combo Panels		●		●	●	●
Markerboard	●		●			●
Painted Panels	●		●		●	●
Pegboard	●	●	●		●	●
Pegboard Skinz	●					
Sample Boards	●	●	●		●	●
Slatwall - Custom CNC	●	●	●	●	●	●
Slatwall - Long Direction				●	●	●
Slatwall - Short Direction		●	●	●	●	●
Slotted Panels		●	●		●	
Woodgrain Prints			●		●	●
Thermally Fused Laminate						●
High Pressure Laminate		●		●		●
