

PANEL PROCESSING, INC.

Your Flat Panel & Component Fabricator

Panel Processing is an employee owned, U.S. based, wood panel manufacturer with 50 years of industry experience. We have the expertise and the capacity to provide seamless solutions to all of your panel needs. Choose Panel Processing to be your go-to value-added flat panel supplier.

At Panel Processing, we work with customers as their domestic wood product manufacturer. We fabricate custom wood panels and components to meet our clients' specifications. We offer a wide range of products and services, including both full sheets and cut-to-size parts.

Our products include but are not limited to raw board, laminated board, painted board, coated board, plastic, ready to assemble furniture, displays, fixtures and more.

We provide products and services for a vast array of markets, including: retail, hospitality, office and education, healthcare, furniture, flooring, kitchen and bath, toy and game, financial institutions, storage and home organization, and cannabis dispensaries.

SLATWALL PANELS

All of our Slatwall is made to order creating custom retail and storage spaces. As one of few custom Slatwall suppliers, Panel provides custom Slatwall panels in a variety of colors, patterns, sizes; designed to the customer's specifications. Sheet Sizes: 4' & 5' wide with various lengths available. Long (horizontal) and short (vertical) direction. Square edges and half grooves. 3" OC, 6" OC and custom grooves available. Custom shapes, sizes, margins and spacing.

PEGBOARD PANELS

Pegboard is ideal for displays, gondola backers, storage solutions and more. As a commercial manufacturer, we can provide Pegboard as individual panels for walls or designed and cut into custom components for display assembly. Sheet Sizes: 4' & 5' wide with various lengths available. Thickness Available: 3.2mm (1/8"), 4.8mm (3/16"), 5.5mm (1/4"). Standard hole diameters 9/32" & 3/16". Standard hole patterns available.

MARKERBOARD PANELS

Panel manufactures Markerboard panels in standard white as well as custom colors upon request. Our CNC abilities allow us to provide custom routing to make the perfect shape or size for any project. Sheet Sizes: 4' & 5' wide with various lengths available. Thickness Available: 3.2mm (1/8") - 1". Traditional markerboard coating and markerboard laminate available. Accepts screen printing and digital printing.

CHALKBOARD PANELS

Panel produces quality Chalkboard panels & components used in learning aids, toy & game products, juvenile furniture, store signs, café walls & other commercial applications. Sheet Sizes: 4' & 5' wide with various lengths available. Thickness Available: 3.2mm (1/8") - 1". Water based liquid chalk paint accepts traditional chalk and liquid chalk pens. Laminated melamine paper accepts traditional chalk and liquid chalk pens.

MEGA PEG PANELS

Mega Peg is an unique concept that gives you a flexible way to store and display items. A large hole and round peg system creates an endless range of options utilizing pegs, shelves, graphics/signs and more. Standard Hole Patterns: 2", 3", 4", 6" and 12" OC. Custom placement and sizes available. Standard Hole Diameters: Round holes fit 1" diameter dowel. Square peg hook and wall cube systems also available.

ECO-FINISH DIGITAL PRINT MEDIA

A specially formulated water-based coating, Eco-Finish™ is environmentally friendly and provides an excellent printing surface for high-quality digital or screen printing. The coating can be applied to a variety of rigid board substrates creating an excellent choice for large format printing including signage and graphic intense P.O.P. displays. Sheet Sizes: 4' & 5' wide with various lengths available. Thickness Available: 3.2mm (1/8") - 1".

THERMALLY FUSED LAMINATE PANELS

Thermally Fused Laminate (TFL) decorative panels have excellent wear resistance and are widely used for furniture, fixtures and closet components. Sheet Sizes: 4' & 5' wide with various lengths up to 10' available. Thickness Available: 5.5mm (1/4") - 1-1/2". Over 40 standard designs and colors in stock, including our exclusive Crater Lake Collection. 4 textures available: Stipple, Matte, Caldera & Cleetwood. Matching edgebanding available for most colors.

HIGH PRESSURE LAMINATE PANELS

High Pressure Laminate (HPL) is a decorative surface that is both aesthetically pleasing and highly durable. Designed to withstand the wear and tear of daily use without losing any of its visual appeal, High Pressure Laminating is recommended for surfaces that are highly trafficked on a regular basis. Sheet Sizes: 4' & 5' wide with various lengths available. Thickness Available: 5.5mm (1/4") - 1-1/4". Thousands of colors available from preferred suppliers.

MELAMINE DECORATIVE PAPER/FOILS PANELS

Melamine Decorative Paper/Foils are an economical overlay utilized for vertical surfaces. Advances in gloss and texturing, high quality printing and thousands of colors and patterns make Melamine Papers an ideal solution for low wear applications without having to sacrifice quality and appearance. Sheet Sizes: 4' & 5' wide with various lengths available. Thickness Available: 5.5mm (1/4") - 1-1/4". Thousands of colors available from preferred suppliers.

CABINETRY COMPONENTS

Panel manufactures a wide variety of components and ready-to-assemble cabinets for the kitchen, hospitality, and commercial cabinet industries. By fabricating specific parts and components, we can help reduce manufacturing time and costs or assist with overflow as an outsourcing partner. Thickness Available: 3.2mm (1/8") - 11/4". Drawer, cabinet box and shelving components. Grooves, dados, dovetails, edgebanding, drilling and machining options.

PEGBOARD SKINZ

Pegboard Skinz are perforated paper overlays that can be placed directly over existing pegboard panels. Secured with clips or double-sided tape they change a retail environment in moments, creating cost-effective, time-saving versatility. Your printer supplies us the printed paper, then we punch it. Standard Hole Patterns: 1" OC. Standard Hole Diameters: 9/32" (nominal 1/4"). 100% Scrap (complete peg holes). 0% Scrap (partial peg holes).

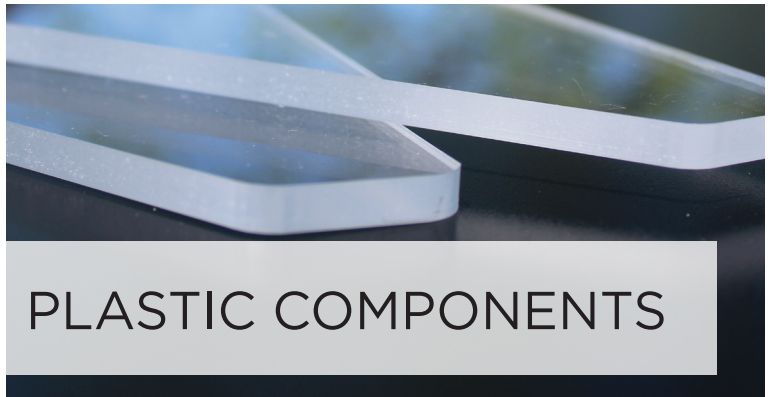

FURNITURE COMPONENTS

Panel has been making standard and specialty furniture components, pack-outs and ready to assemble units for the furniture industry for many years. Choose between an assortment of board thicknesses, core materials, finishes, and other custom options for fully assembled, pack-out and components for desks, closets, tables, cabinets, shelves and more. Thickness Available: 3.2mm (1/8") - 1 1/4". Edgebanding, drilling and machining options.

FIXTURE & DISPLAY COMPONENTS

As a custom retail display manufacturer, we can provide raw, laminated, or painted composite panel sheets, cut or drilled components or ready to assemble fixtures designed for your space. Panel will work with your design to create the parts and pieces needed or fully assemble the display you need. Gondolas, P.O.P. displays, cash wraps, reception desks. Sheet Sizes: 4' & 5' wide with various lengths available. Thickness Available: 3.2mm (1/8") - 1 1/4".

PLASTIC COMPONENTS

All of our plants are equipped with CNC machine center boring and routing technology. If your plastic project calls for route-to-shape, drilling, perforating or other custom fabrication; we can get it done. Panel can quickly translate your prints to produce parts to your exact specs. P.O.P. display parts, partitions, plastic hole punching and custom components. Sheet Sizes: 4' & 5' wide with lengths up to 12'. Wide range of thicknesses: 0.02" - 2".

SAMPLE BOARDS

Sample Boards are a necessity for display in the tile and flooring industry; utilized for displaying samples of carpet, tile, wood flooring, shingles and more. Panel produces Sample Boards in any size and are finished to your exact specifications. Radius or square corners, bullnose or flat edges, routed hand holes and drilled mounting holes. Thickness Available: 5.5mm (7/32") stock, 3.2mm (1/8") & 3/16" available. Stock Sizes: 18"W x 24"H & 26"W x 24"H.

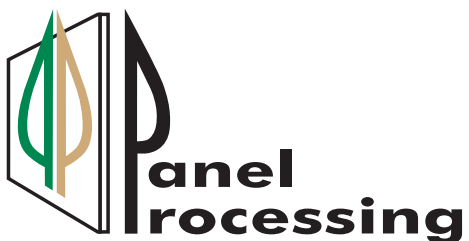

SAMPLE BOARD DISPLAYS

Just like with our Sample Boards, Panel can cut, paint, drill and fabricate any Sample Board Display design you may need. We are not limited to standard designs; we work with you to create a concept that best displays your products. Displays can be painted, laminated or finished with our digital print coating for printing graphics. Sheet Sizes: 4' & 5' wide with various lengths available. Thickness Available: 3.2mm (1/8") & 5.5mm (1/4").

TOY & GAME COMPONENTS

Panel produces a wide variety of wood components utilized in the toy and game industry. From small parts to large boards, raw to coated; our machining, coating and printing processes offer the diversity that every customer needs. Panel can cut, machine, drill, edgeband, coat, paint full sheets or custom components. Sheet Sizes: 4' & 5' wide with various lengths available. Thickness Available: 3.2mm (1/8") & 5.5mm (1/4").
