PEGBOARD SKINZ

EASY TO CHANGE

Hard to ignore.

PEGBOARD SKINZ

Being the nation's Pegboard leader, it only made sense that we would find additional ways to dress up your pegboard. Panel Processing's Pegboard Skinz are perforated paper overlays that can be placed directly over existing pegboard panels and secured with pegs, tree clips, or double-sided tape. These skinz allow you to change a retail environment in moments giving you cost-effective, time-saving versatility. Pre-punched holes in the thick stock paper allow you to change the display layout without tearing paper.

Technical Specifications

- 1" OC standard hole pattern
- 9/32" (nominal 1/4") standard hole diameter
- 100% scrap (complete peg holes)
- 0% scrap (partial peg holes)

Substrates Available

- 10 pt paper (standard)
- 12 pt paper (standard)
- Capable of utilizing 8 pt - 24 pt
- 10 ml to 20 ml styrene

How it Works - We Just Punch the Paper

We work with **your** printer, graphic house, store fixture manufacturer or can supply the finished product. The printed sheets will be given the peg hole pattern and specifications you require for your display. You no longer need to replace entire units of pegboard for seasonal displays. Think green! You can create less waste by placing skinz on your entire store remodel instead of replacing the board!

- Easy to change and replace
- Affordable and cost effective
- Adds versatility for seasonal changes and specials
- Two hole options for different looks and display functions
- Creates less waste than replacing actual pegboard

Easy to change.
Hard to ignore.

0% Scrap

100% Scrap

We have the 100% scrap option, where the complete hole has been removed. Our 0% Scrap option simply has partial cuts in the paper where the hole will be. Both work great, but give your Pegboard a different look and display function.
