

MEGA PEG. THINK BIG.

Do you need a different way to display your products? Then you need Mega Peg! Pegboard is our tried-and-true display option but recently it has taken on a new life in the retail environment, as well as in homes – in the kitchen, office, bedroom and more – as a great industrial, rustic approach to organize and display in one! So why not go one step further and make it MEGA!

Mega Peg is an updated concept that gives you a fresh, new way to store and display items. Mega Peg features a large hole and round peg system creating an endless range of options utilizing pegs, shelves, graphics/signs and more.

You can simply hang bags, scarves, jeans, shirts and jewelry from one single peg or use two pegs to support flat surfaced products such as shoes, boxes and sunglasses. You can digitally print on the board to complete your display.
